Recycled materials

We are using corks in our home corner area for the children to use in their play cooking activities. If you have any spare ones, please could you put them in our recycled materials box in the porch.

What are the children learning next week?

This term N2 are doing a programme to help their understanding of their own and each other's feelings. The 4 main emotions that they will be learning about are happy, sad, angry and scared.

Questionnaires

Many thanks to all of you who filled in our questionnaire last week.

Our Younger Learners

Our N1 children are learning about paint at the moment. They are exploring paint with brushes and rollers - and of course their hands too! Don't worry, we always put aprons on first, and the paint we use is washable. After painting the children are learning how to wash their hands themselves; they love the foam soap that we use!
