Ready for School Meeting

Monday 23rd March 4-5pm. Cancelled

Instead we will be providing some information for all families about some activities that can be done at home to support your child's learning (particularly in the event of your family being in isolation).

Easter Pictures Hunt

Cancelled for parents and families. We will still do the hunt with the children ourselves within session time

Covid 19

We are being advised daily by the Government Education and Health departments. We will continue to keep parents informed **through the website** if any decisions are made regarding closures.

Any child with a fever or new persistent cough needs to stay at home for **14 days**, or if **anyone in the household** has a fever or new persistent cough.

If your child is absent from nursery for illness (of any kind) you should let us know via a phone call or email so that we can continue to monitor the situation.

We appreciate that nursery education is not compulsory and that as a parent you can make the choice not to send them into nursery until this Coronavirus situation has ended. If this is the case, all we ask is that you let us know – this information will really help us, particularly in the event of staff absences due to the virus/isolation.

These are difficult times for everyone and we hope that this situation will soon be over. In the mean time we send best wishes to you and your loved ones.
